These classes were absolutely phenomenal. Professor Datta was absolutely amazing and was always eager and willing to try different ways to help explain the material, which was especially difficult to do considering the nature of the zoom semester. He was absolutely brilliant and he knew how to explain the questions in very easy-to-understand ways, and he was always encouraging participation and adapting to students' questions and preferences. He was also always around for review and always providing great review sessions. An absolutely amazing class because of an absolutely amazing Professor.

Amitesh was an amazing instructor and seemed to genuinely care about everyone doing well in the course. He answered questions clearly and I always left class feeling like I had a better understanding of the concepts covered. His exam review sessions covered challenging questions that definitely helped prepare me for the more difficult exam questions.

I adore my preceptor! He was so helpful the entire semester and really cared about his students. He held numerous review sessions before all the tests and finals and genuinely wanted the best for us. His classes were well orchestrated and overall he was amazing.

I did not like Calculus in high school and I actually started to enjoy going to classes. Amitesh is a great teacher! He explained the material well and encouraged everyone to participate.

The classes with Amitesh were great. Amitesh is such a good preceptor and he will make sure you leave class with a thorough understanding of the material. He consistently goes overtime with his office hours to make sure everyone's questions get answered.

Overall I would say the quality of the classes were excellent and they even got better throughout the semester. I really enjoyed the breakout rooms and the time when the instructor was showing us and reviewing the lecture videos. I always felt that I could ask questions and get good clarification.

My preceptor was super helpful in clarifying questions and genuinely wants students to do well! He is responsive, caring, and also clear with his explanations of questions. Having him as my preceptor was possibly the best part of this course.

Amitesh is the best preceptor. Very open to helping you do well and encouraged participation to help everyone.

The instructor did a great job teaching the material and guiding us through the worksheets each day. He made sure each student participated and was engaged. Towards the end of the course, he started asking more challenging questions—ones that were similar to those asked on exams which I appreciated.

Amitesh was very patient, kind, and helpful toward students both during and outside of class. He always tried his best to engage his students with the course material. He helped us prepare for tests and understand important concepts. He was constantly looking for ways to help his students succeed in the course; he often asked for feedback on the structure and pacing of his classes and also prepared some practice questions for us to solve.

Amitesh did a wonderful job of encouraging student engagement and success and was extremely kind and caring throughout the semester. Open to answering all questions at any time and available for students whenever they needed.

Great class overall. Lectures move pretty quickly and the material is challenging, but definitely manageable, especially if you take advantage of office hours. Amitesh is an amazing preceptor and always wants his students to succeed!

Amitesh is the best preceptor. He really wants you to do well and his review sessions were very helpful.

Amitesh was very flexible and kind, even when students were confused, or shy and reluctant to participate.

Datta is a sweetheart. He knows how to explain things and he knows how to engage his students

Amitesh is a wonderful preceptor. During each precept, he would make sure to clarify any confusing points from lecture, and we would work together in small groups on the day's worksheet. As precept was our only synchronous touchpoint, it was crucial that it be a space where we could ask questions and understand the material, which was absolutely the case here.

Amitesh was an amazing preceptor!! He always made sure everyone was engaged and that everyone's needs were met. He would go out of his way to provide ample resources to us and it was evident that he wanted us to succeed in the course! He helped clarify unclear concepts and lecture material at the beginning of class, and he presented questions in addition to what was on the worksheets to ensure that we had a strong understanding of the material.
